

## Christmas Tree Scented Sachets Recipe

These scented sachets are the perfect way to fill your home with the scent of fresh cut Christmas trees even if you have an artificial one! They are SUPER EASY to make, as easy as 1, 2, 3 in fact and they make a great little stocking stuffer or hostess gift as well!

To use simply pop in your vacuum cleaner bag, toss in a basket or drawer, hang in a closet or place in a sunny window, around heat vents or nestled near the fireplace. The fragrance will be released in to your home and fill it with the scents of the season! Our Potpourri & Sachet Unscented Fixative Base absorbs and holds the scent of the fragrance oil and will retain scent better than potpourri alone. 100% natural, plant-based, non toxic & biodegradable.

## **DIRECTIONS**

### **Step 1**

Add 0.5 oz (14 g) Christmas Tree Fragrance Oil to 1 lb Potpourri & Sachet Unscented Fixative Base or split up your mixture depending on how many fragrances you would like to use. (We used a ratio of 4 oz (113 g) base to 0.125 oz (4 g) fragrance.)

Mix with a whisk or spoon.

### **Step 2**

Place mixture in a glass jar with lid and allow the fragrance to absorb for 2-7 days. (Shake up the mixture occasionally.)

### **Step 3**

Package in muslin bags, label & you're done!

## **TO USE**

Toss a sachet in your vacuum & spread the scent of freshly cut Christmas tree throughout your house! To refresh, simply add a few more drops of fragrance.

## **ALSO ADD SACHETS TO**

Cars, drawers, gym bags, or lockers. Place them in a sunny window or near vents for an even stronger scent release.

## **WARNING**

Do not place scented potpourri on wood, plastic, or painted surfaces as any unabsorbed fragrance can cause damage to these surfaces. Warning labels on your finished products are recommended to ensure customers use them properly. Testing is always recommended to ensure desired results are achieved.
