

Sugar Cookie Bath Bombs Recipe

This Christmas, leave Santa a treat that won't increase his waistline. These bath time treats are scented with Sugar Cookie Fragrance Oil which contains notes of sugar, butter, vanilla and chocolate with none of the guilt! Our Bath Bomb and Fizzie Base is the easy way to make beautiful last-minute gifts your friends and family will love. Our plastic bath bomb molds not only make great molds, but can be used as secure packaging and make easy holiday ornaments, too! Simply tie on a ribbon and hang it on your Christmas tree.

This recipe includes added cocoa butter. Cocoa butter not only adds a touch of luxury to these bath bombs, it also allows them to pop right out of the molds. The chocolatey scent of the cocoa butter complements the Sugar Cookie Fragrance Oil, too. Feel free to substitute mango butter or shea butter.

INFORMATION

- Difficulty: Easy
- Yield: 7 Bath Bombs

TIMING

- Prep Time: 5 Minutes
- Perform Time: 20 Minutes
- Drying Time: 4 Hours
- Total Time: 4 Hour 25 Minutes, 25 Minutes active time.

SUPPLIES

- [Digital Scale](#)
- 7 x 2.6" [Bath Bomb Molds, Plastic](#)
- Large Mixing Bowl
- Small Microwavable Bowl
- Paper Towels
- Scissors
- 1" wide Satin Ribbon or other Ribbon
- Latex or Nitrile Gloves

INGREDIENTS

- 2 lbs [Bath Bomb & Fizzie Base](#)
- 2 oz [Cocoa Butter, Natural Golden](#)
- 2 tsp / 10 ml Water
- 0.66 oz Fragrance Oil in [Sugar Cookie](#) or [Holiday Fragrance](#) of choice
- 2 oz 91% Isopropyl Alcohol (available at any pharmacy)
- 2-3 tbs Cake Sprinkles (available from the grocery store)

DIRECTIONS

Before starting this tutorial please make sure to read all instructions. Use caution when handling melted oils. Do not weigh fragrance oils into plastic containers; use glass or stainless steel. Use gloves when mixing to keep your manicure from getting scratched.

Step 1 – Mix the Bath Bomb Base

Melt the cocoa butter in a small microwaveable bowl for about 3 minutes on high power, or until melted, stirring midway through. Set aside to cool briefly.

Mix the water with the isopropyl alcohol.

Add the cocoa butter and isopropyl alcohol mixture to the bath bomb base in a large mixing bowl. Mix thoroughly using your hands. Check the consistency of the mixture. It should form distinct clumps when squeezed. If it seems too crumbly, add a couple drops of isopropyl alcohol.

Step 2 – Mold the bath bombs

Place approximately 1 tsp. of cake sprinkles in one half of a bath bomb mold.

Gently press some of the mixture in one half of the plastic bath bomb mold.

Mound a little more mixture in the center of the bath bomb. Clean off the edges of the mold. Repeat with the second half, omitting the cake sprinkles. (Note: make sure you are using the corresponding half of the mold!) Press the two halves together and line up the eyelets.

Repeat with the remaining molds.

Step 3 – Finish the bath bombs

Allow the bath bombs to sit on the counter top for two hours. Unsnap the covers and clean the edges with a paper towel, if desired. This step is not necessary, but it does make a smoother presentation.

Allow the bath bombs to dry with one half of the molds removed for two more hours or overnight. Remove from the molds or snap the molds shut and tie a ribbon through the holes in each mold. Hang on the tree and enjoy! Be sure to tell your recipients to use the bath bombs within a couple of months. They won't keep until next Christmas!
